YAZDI, ISMAIL, AND NOWPARAST, BAHRAM. Extraosseous adenomatoid odontogenic tumor with special reference to the probability of the basal-cell layer of oral epithelium as a potential source of origin, 249

Subject index

A

Acanthoma, clear-cell, of vermilion mucosa of lower lip (Weitzner), 911

Adenomatoid odontogenic tumor, extraosseous, with special reference to probability of basal-cell layer of oral epithelium as potential source of origin (Yazdi and Nowparast), 249

Allergic sialoadenitis, experimental (Rosenmann et al.), 566

Allogeneic freeze-dried skin grafts in the oral environment (Carroll, Tow, and Vernino), 163

Alveolar bone, maintenance of, by intentional replantation of roots (Simon and Kimura), 936

defects, secondary closure of (Broude and Waite), 829

American Academy of Oral Pathology, 328, 487, 655 (Announcements)

proceedings of annual meeting—1973, 540

American Board of Endodontics sets new procedures, 594

American Board of Oral Medicine, Inc., 162 (Announcement)

American Cleft Palate Association, 655 (Announcement)

9-aminoacridine, comparison with other commonly used endodontic medications (Jurecko), 621

Amyotrophic lateral sclerosis (Roller et al.), 46

Analgesic sensitivity of tooth pulp, modulation of cortical inputs by electrical stimulation of adjacent gingiva (Savara et al.), 17

Anatomic landmarks, normal, and artifacts as visualized on Panorex radiographs, comprehensive review (Smith and Fleming), 291

Anatomy, roentgen, panoramic innominate line and related, of facial bones (Katayama, Ohba, and Ogawa), 131

Anemia, sickle-cell, radiographic features of jaws in (Mourshed and Tuckson), 812

Anesthesia, general, program of, for dental care of mentally retarded patients (Greene and Falcetti), 329

Aneurysm, cirsoid, secondary to arteriovenous fistula of facial artery and vein (Poyton, Mustard, and Sim), 474

Aneurysm—Cont'd

false, of facial artery as complication of circumferential wiring (van den Akker and van der Lijn), 514

Ankylosis, bilateral, of mandible in open position (Wallace and Stern), 179

Announcements, 161, 327, 487, 655, 828, 978

Anxiety/pain complex in dentistry, control of (Foreman), 337

Artery, facial, false aneurysm of, as complication of circumferential wiring (van den Akker and van der Lijn), 514

Artifacts, normal anatomic landmarks and, as visualized on Panorex radiographs, comprehensive review (Smith and Fleming), 291

Aspiration of foreign material, unusual complication associated with severe maxillofacial trauma (Kullbom and Adwers), 355

Aspirin-induced oral bleeding: correction with platelet transfusion (Lemkin et al.), 498

B

Bacteremia, incidence following oral prophylaxis on pediatric patients (De Leo et al.), 36

Bacteria, periodontal disease, and pulpal histopathology (Langeland, Rodrigues, and Dowden), 257

Basal-cell layer of oral epithelium, probability of, as potential source of origin of extraosseous adenomatoid odontogenic tumor (Yazdi and Nowparast), 249

Biologic effects of dental materials (Spangberg, Rodrigues, and Langeland), 113, 284, 438

Biology of Human Dental Pulp meetings, hard-cover edition available, 161, 327, 487, 655, 828, 978 (Announcements)

Biopsies, labial salivary gland, histopathology of Sjögren's syndrome in (Greenspan et al.), 217

"Blade-vent" implant resulting in oroantral fistula (James, Woods, and Kurti), 350

Bleeding, oral, aspirin-induced (Lemkin et al.), 498

January, pp. 1-162; February, pp. 163-328; March, pp. 329-488; April, pp. 489-656; May, pp. 657-828; June, pp. 829-994.

Blood and blood substitutes, dental pulp regeneration aided by, after experimentally induced periapical infection (Myers and Fountain), 441
Bone, alveolar, maintenance of, by intentional replantation of roots (Simon and Kimura), 936
cysts, traumatic, of jaws (Hansen, Sapone, and Sproat), 899
facial, panoramic innominate line and related roentgen anatomy of (Katayama, Ohba, and Ogawa), 131
graft, osteomyelitis, introgenic osteolysis, pathologic fracture, and (Ellis and O'Brien), 364
matrix, decalcified allogeneic, in palatal defects, experimental osteogenesis with (Narang and Wells), 153
Bullet wound, roentgenogram of, 305 (Roentgeno-oddities)

C

Calcium fluoride and lithium fluoride thermoluminescent dosimetry systems, energy and angle dependence of (Gibbs and Mitchell), 641
Carcinoma, adenoid squamous-cell, of vermilion mucosa of lower lip (Weitzner), 589
malignant primary intraosseous, of mandible (De Lathouwer and Verhest), 77
of tongue in child (Turner and Snitzer), 663
oral, associated with oral lichen planus (Silverman and Griffith), 705
Cavity liners, effect on HeLa cells in vitro; biologic effects of dental materials (Spangberg, Rodrigues, and Langeland), 284
Cement, polycarboxylate, comparative evaluation as root-canal sealer utilizing roughened and nonroughened silver points (Sanders and Dooley), 629
effect on HeLa cells in vitro; biologic effects of dental materials (Spangberg, Rodrigues, and Langeland), 113
Cementoblastoma, benign (Cherrick et al.), 54
Cementomas; dental defects in hamsters infected with minute virus of mice (Baer and Kilham), 385
Chediak-Higashi syndrome (Hamilton and Giansanti), 754
Chelating agents; evaluation of EDTA in endodontics (Seidberg and Schilder), 609
their softening effect on root canal dentin (Fraser), 803
Chondroma of tongue (Gutmann et al.), 75
Chordoma, malignant (Small), 863
Circumferential wiring, false aneurysm of facial artery as complication of (van den Akker and van der Lijn), 514
Cirsoid aneurysm secondary to arteriovenous fistula of facial artery and vein (Poyton, Mustard, and Sim), 474
Closure, secondary, of alveolar defects, (Broude and Waite), 829
Condylar reconstruction: treatment planning (Kent, Lavelle, and Dolan), 489
Connecticut Society of Oral Surgeons, 327 (Announcements)
Coronoid process, mandibular, osteochondroma of (James, Alexander, and Traver), 189
Cortical inputs from tooth pulp, modulation by electrical stimulation of adjacent gingiva (Savara et al.), 17
Cyst, bilateral nasolabial (Brandao, Ebling, and Faria e Souza), 480
dentigerous, radiographic superimposition and suspected, 306 (Roentgeno-oddities)
dermoid, with lingual sinus tract (Korchin), 175
epidermoid, of cerebellopontine angle; facial pain of intracranial origin (Anderson and Ogle), 841
hidden, 138 (Roentgeno-oddities)
mandibular, and supernumerary premolars, 654 (Roentgeno-oddities)
median mandibular— rare lesion of debatable origin (Buchner and Ramon), 431
palatine (Courage, North, and Hansen), 745
mucous retention. *(See* Mucoceles)
nasopalatine duct, with pigmented lining suggestive of olfactory epithelium (Redman), 421
odontogenic keratocyst (Sher and Stoopack), 518
traumatic bone, of jaws (Hansen, Sapone, and Sproat), 899
Cystadenoma, papillary, of ectopic minor salivary gland origin (Wilson and MacEntee), 915
Cystic swelling, congenital sublingual, due to imperforate salivary ducts (Hoggins and Hutton), 370
Cysticercosis of maxillofacial region (Timoşca and Gavriliţă), 390

D

Darier's disease of oral mucosa (Weathers and Driscoll), 711
Degradation rates of polymers and copolymers of polylactic and polyglycolic acids (Cutright et al.), 142
Dens in dente, supernumerary tooth odontoma and, 974 (Roentgeno-oddities)
invaginatus, double, 139 (Roentgeno-oddities)
Dental care of mentally retarded patients, program of general anesthesia for (Greene and Falcetti), 329
defects in hamsters infected with minute virus of mice (Baer and Kilham), 385
eruption, massive gingival hyperplasia preceding, in I-cell disease (Galili, Yatziv, and Russell), 533

Dental—Cont'd
materials, biologic effects (Spangberg, Rodrigues, and Langeland), 113, 284, 438
radiology, 123, 291, 474, 641, 812, 962
comparative radiation doses in (Lee), 962
research, 141, 308
treatment and heart valve complications in narcotic addicts (Ayer and Cutright), 359
Denticles, formation of multiple, 973 (Roentgeno-oddities)
Dentin, root canal, softening effect of chelating agents (Fraser), 803
Dentistry, control of anxiety/pain complex in (Foreman), 337
Diazepam, intravenous psychosedation with techniques using; control of anxiety/pain complex in dentistry (Foreman), 337
Dosimetry systems, thermoluminescent, calcium fluoride and lithium fluoride, energy and angle dependence of (Gibbs and Mitchell), 641
Down's syndrome, oral florid papillomatosis in (Eversole and Sorenson), 202
Dyskeratosis congenita with associated periodontal disease (Wald and Diner), 736
Dysplasia, autosomal dominant ectodermal, "tooth and nail" type (Giansanti, Long, and Rankin), 576

E

Ectodermal dysplasia, autosomal dominant, "tooth and nail" type (Giansanti, Long, and Rankin), 576
EDTA in endodontics, evaluation of (Seidberg and Schilder), 609
Education programs, advanced, in endodontology (Morse and Seltzer), 94
Electron microscopy, scanning, of papillae foliatae of human tongue (Švejda and Janota), 208
Endodontic implants, Vitallium (Letters to editor), 288
medications, comparison of 9-aminoacridine with other commonly used (Jurecko), 621
recall procedures (Riley), 118
Endodontics, 93, 257, 438, 594, 762, 919
evaluation of EDTA in (Seidberg and Schilder, 609
past and future (Grossman), 599
residency available, 161 (Announcement)
surgical, injection obturation in (Mosby and Tracy), 451
Endodontology, advanced education programs (Morse and Seltzer), 94
Epithelium, melanocytes, and Langerhans cells, growth of, human and experimental dental pulp polyps (Southam and Hodson), 546
olfactory, nasopalatine duct cyst with pigmented lining suggestive of (Redman), 421
Epulis fissuratum, histopathologic findings in 583 cases (Cutright), 401
Eruption, premature; unusual sequelae to surgical repositioning of impacted premolar (Stewart, Merrill, and Porter), 688

F

Facial artery and vein, cirsoid aneurysm secondary to arteriovenous fistula of (Poyton, Mustard, and Sim), 474
false aneurysm of, as complication of circumferential wiring (van den Akker and van der Lijn), 514
bones, panoramic innominate line and related roentgen anatomy of (Katayama, Ohba, and Ogawa), 131
pain of intracranial origin (Anderson and Ogle), 841
Fibroma, giant-cell (Weathers and Callihan), 374
Fibrosis, submucous (Hamner, Looney, and Chused), 412
Fistula, arteriovenous, of facial artery and vein, cirsoid aneurysm secondary to (Poyton, Mustard, and Sim), 474
oroantral, "blade-vent" implant resulting in (James, Woods, and Kurti), 350
Foreign body, "phantom," of lip, 824 (Roentgeno-oddities)
Fracture, mandibular, false aneurysm of facial artery as complication of circumferential wiring during treatment of (van den Akker and van der Lijn), 514
pathologic, osteomyelitis, iatrogenic osteolysis, and bone graft (Ellis and O'Brien), 364

G

Gingival hyperplasia, massive, preceding dental eruption in I-cell disease (Galili, Yatziv, and Russell), 533
Gloves, surgeons,' granulomas caused by starch powder from (Cutright, Becker, and Bunge), 699
Graft, bone, osteomyelitis, iatrogenic osteolysis, pathologic fracture, and (Ellis and O'Brien), 364
decalcified allogeneic bone matrix, in palatal defects, experimental osteogenesis with (Narang and Wells), 153
mucosal, in asutural maxillary vestibuloplasty (Maloney, Shepherd, and Doku), 858
particulate marrow, for restoration of mandibular symphysis (Mitchell and Marble), 196
Granulomas caused by starch powder from surgeons' gloves (Cutright, Becker, and Bunge), 699
Gutta-percha, thermomechanical properties of (Goodman, Schilder, and Aldrich), 954
(Schilder, Goodman, and Aldrich), 946

H

Harlem Hospital Center, 978 (Announcement)

Heart valve complications and dental treatment in narcotic addicts (Ayer and Cutright), 359
Hemangioma, central mandibular (Sánchez Torres and Viñas), 509
of jaws (Perriman, Uthman, and Kuzair), 502
of mandible and maxilla (Gamez-Araujo, Toth, and Luna), 230
Hemorrhage after oral surgery (Jensen), 2
Herpes zoster, necrosis of maxilla in patient with (Hall, Jacobs, and O'Malley), 657
Histologic criteria commonly used in pulp studies, analysis of (Sayegh and Reed), 457
reaction of submerged root segments (Whitaker and Shankle), 919
Hyperplasia, massive gingival, preceding dental eruption in I-cell disease (Galili, Yatziv, and Russell), 533
Hypodontia in "tooth and nail" type of autosomal dominant ectodermal dysplasia (Giansanti, Long, and Rankin), 576

I

I-cell disease, massive gingival hyperplasia preceding dental eruption in (Galili, Yatziv, and Russell), 533
Impactions, bilateral fourth molar, 485 (Roentgeno-oddities)
Impacted and supernumerary teeth, multiple, 976 (Roentgeno-oddities)
deciduous first molar (Rohlin), 820
maxillary tooth, unusual, 825 (Roentgeno-oddities)
Implant, "blade-vent," resulting in oroantral fistula (James, Woods, and Kurti), 350
intraosseous, in albino rats, tissue response to (Desai and Sinkford), 26
Vitallium endodontic (Letters to editor), 288
Injection obturation in surgical endodontics (Mosby and Tracy), 451
Innominate line, panoramic, and related roentgen anatomy of facial bones (Katayama, Ohba, and Ogawa), 131
Intermaxillary immobilization period following surgical correction of prognathism, orthodontic treatment during (Elias, Telsey, and Stern), 526
International Conference on Oral Biology, sixth, 828 (Announcement)
International Congress of Maxillofacial Radiology, third, 161, 327, 487 (Announcements)
Intraosseous implants, tissue response to, in albino rats (Desai and Sinkford), 26
Isobutyl cyanoacrylate, effects on HeLa cells in vitro; biolcgic effect of dental materials (Spangberg, Rodrigues, and Langeland), 438

J

Jaws, central hemangiomas of (Perriman, Uthman, and Kuzair), 502
Jaws—Cont'd
metastases (van der Kwast and van der Waal), 850
radiographic features of, in sickle-cell anemia (Mourshed and Tuckson), 812
traumatic bone cysts of (Hansen, Sapone, and Sproat), 899

K

Keratoacanthoma (Scofield, Werning, and Shukes), 889
Keratoconjunctivitis sicca. (*See* Sjögren's syndrome)
Keratocyst, odontogenic (Sher and Stoopack), 518
Keratosis follicularis; Darier's disease of oral mucosa (Weathers and Driscoll), 711

L

Landmarks, normal anatomic, and artifacts, as visualized on Panorex radiographs, comprehensive review (Smith and Fleming), 291
Langerhans cells, growth of epithelium, melanocytes, and, on human and experimental dental pulp polyps (Southam and Hodson), 546
Letters to editor, 288
Lichen planus, histochemical studies (Heyden, Arwill, and Gisslén), 239
oral, studies on (Silverman and Griffith), 705
Lingual sinus tract, dermoid cyst with (Korchin), 175
thyroid (Small), 692
Lip, lower, adenoid squamous-cell carcinoma of vermilion mucosa of (Weitzner), 589
clear-cell acanthoma of vermilion mucosa of (Weitzner), 911
"phantom" foreign body of, 824 (Roentgeno-oddities)
Lithium fluoride and calcium fluoride thermoluminescent dosimetry systems, energy and angle dependence of (Gibbs and Mitchell), 641

M

Malocclusion, Class II, corrected by full mandibular advancement surgery, stability of treatment results (Guernsey), 668
Mandible and maxilla, central hemangioma of (Gamez-Araujo, Toth, and Luna), 230
bilateral ankylosis of, in open position (Wallace and Stern), 179
central hemangioma of (Sánchez Torres and Viñas), 509
malignant primary intraosseous carcinoma of (De Lathouwer and Verhest), 77
osteochondroma of (Allan and Scott), 556
Mandibular advancement surgery, full, stability of treatment results in Class II malocclusion corrected by (Guernsey), 668

Marrow graft, particulate, for restoration of mandibular symphysis (Mitchell and Marble), 196
Maxilla and mandible, central hemangioma of (Gamez-Araujo, Toth, and Luna), 230
giant odontogenic myxofibroma of (Westwood, Alexander, and Bennett), 83
necrosis of, in patient with herpes zoster (Hall, Jacobs, and O'Malley), 657
Maxillary vestibuloplasty, asutural (Maloney, Shepherd, and Doku), 858
Maxillofacial region, cysticercosis of (Timosca and Gavrilită), 390
trauma, severe, unusual complication associated with (Kullbom and Adwers), 355
Melanocytes, epithelium, and Langerhans cells, growth of, on human and experimental dental pulp polyps (Southam and Hodson), 546
Metastases, jaw (van der Kwast and van der Waal), 850
Methemoglobinemia induced by high doses of prilocaine (Warren, Van de Mark, and Weinberg), 866
Mid-Pacific Society of Periodontology, 978 (Announcement)
Minute virus of mice, dental defects in hamsters infected with (Baer and Kilham), 385
Molar, bilateral fourth, impactions, 485 (Roentgeno-oddities)
impacted deciduous first (Rohlin), 820
Mucoceles, review of technique in treatment of (Strader), 695
Mucous membrane pathology, symposium on, 162 (Announcement)
Myeloma, multiple (Shawkat and Phillips), 969
Myxofibroma, giant odontogenic (Westwood, Alexander, and Bennett), 83
Myxoma, nerve sheath, in tongue (Mincer and Spears), 428

N

Narcotic addicts, dental treatment and heart valve complications in (Ayers and Cutright), 359
Nasolabial cyst, bilateral (Brandao, Ebling, and Faria e Souza), 480
Nasopalatine duct cyst with pigmented lining suggestive of olfactory epithelium (Redman), 421
Necrosis of maxilla in patient with herpes zoster (Hall, Jacobs, and O'Malley), 657
Nerve sheath myxoma in tongue (Mincer and Spears), 428
Neutron radiographic examination of soft- and hard-tissue structures of oral cavity (Boyne, Whittemore, and Harvey), 124
Northeastern Society of Periodontology, 488 (Announcement)

O

Odontomas; dental defects in hamsters infected with minute virus of mice (Baer and Kilham), 385
Oral cavity, soft- and hard-tissue structures of, neutron radiographic examination of (Boyne, Whittemore, and Harvey), 124
epithelium, basal-cell layer of, probability of, as potential source of origin of extraosseous adenomatoid odontogenic tumor (Yazdi and Nowparast), 249
florid papillomatosis in Down's syndrome (Eversole and Sorenson), 202
lichen planus, studies on (Silverman and Griffith), 705
medicine, 35, 202, 533, 705
metastasis of retinoblastoma (Pullon and Cohen), 583
mucosa, Darier's disease of (Weathers and Driscoll), 711
psoriasiform lesions of (with emphasis on "ectopic geographic tongue") (Weathers et al.), 872
pathology, 53, 217, 374, 540, 711, 872
prophylaxis, incidence of bacteremia following, in pediatric patients (De Leo et al.), 36
surgery, 1, 163, 329, 489, 657, 829
hemorrhage after (Jensen), 2
symposium, 656 (Announcement)
Oroantral fistula, "blade-vent" implant resulting in (James, Woods, and Kurti), 350
Orthodontic treatment during intermaxillary immobilization period following surgical correction of prognathism (Elias, Telsey, and Stern), 526
Osteochondroma of mandible (Allan and Scott), 556
of mandibular coronoid process (James, Alexander, and Traver), 189
Osteofibrosis, periapical, in 14-year-old girl (Stoneman and Van de Mark), 649
Osteogenesis, experimental, with decalcified allogeneic bone matrix in palatal defects (Narang and Wells), 153
Osteomyelitis, iatrogenic osteolysis, pathologic fracture, and bone graft (Ellis and O'Brien), 364
Osteotomy; stability of treatment results in Class II malocclusion corrected by full mandibular advancement surgery (Guernsey), 668

P

Pain/anxiety complex in dentistry, control of (Foreman), 337
facial, of intracranial origin (Anderson and Ogle), 841
Palatal defects, experimental osteogenesis with decalcified allogeneic bone matrix in (Narang and Wells), 153
Panoramic innominate line and related roentgen anatomy of facial bones (Katayama, Ohba, and Ogawa), 131

Panorex radiographs, comprehensive review of normal anatomic landmarks and artifacts as visualized on (Smith and Fleming), 291
Papillae foliatae of human tongue, scanning electron microscopy of (Švejda and Janota), 208
Papillomatosis, oral florid, in Down's syndrome (Eversole and Sorenson), 202
Para-aminosalicylic acid, effect of various conditions on sublingual absorption of (De Marco and Blomsnes), 320
Patients, mentally retarded, program of general anesthesia for dental care of (Greene and Falcetti), 329
pediatric, incidence of bacteremia following oral prophylaxis on (De Leo et al.), 36
Periapical and pulpal tissue responses in conventional and monoinfected gnotobiotic rats (Korzen, Krakow, and Green), 783
infection, dental pulp regeneration aided by blood and blood substitutes after experimentally induced (Myers and Fountain), 441
osteofibrosis in 14-year-old girl (Stoneman and Van de Mark), 649
Periodontal disease, bacteria, and pulpal histopathology (Langeland, Rodrigues, and Dowden), 257
dyskeratosis congenita with associated (Wald and Diner), 736
"Phantom" foreign body of lip, 824 (Roentgeno-oddities)
Platelet transfusion in correction of aspirin-induced oral bleeding (Lemkin et al.), 498
Polycarboxylate cement, comparative evaluation as root-canal sealer utilizing roughened and nonroughened silver points (Sanders and Dooley), 629
effect on HeLa cells in vitro; biologic effects of dental materials (Spangberg, Rodrigues, and Langeland), 113
Polylactic and polyglycolic acids, degradation rates of polymers and copolymers of (Cutright et al.), 142
Polyps, dental pulp, human and experimental, growth of epithelium, melanocytes, and Langerhans cells on (Southam and Hodson), 546
Premolar, impacted, unusual sequelae to surgical repositioning of (Stewart, Merrill, and Porter), 688
supernumerary, mandibular cyst and, 654 (Roentgeno-oddities)
Prilocaine, methemoglobinemia induced by high doses of (Warren, Van de Mark, and Weinberg), 866
Prognathism, mandibular, effect on speech of surgery for correction of (Goodstein, Cooper, and Wallace), 846
Prognathism—Cont'd
surgical correction, orthodontic treatment during intermaxillary immobilization period following (Elias, Telsey, and Stern), 526
Prosthesis, condylar head; condylar reconstruction (Kent, Lavelle, and Dolan), 489
Psoriasiform lesions of oral mucosa (with emphasis on "ectopic geographic tongue") (Weathers et al.), 872
Psychosedation, intravenous, with techniques using diazepam; control of anxiety/pain complex in dentistry (Foreman), 337
Pulp, dental, effect of systemic disorders on, in experimental animals (Cohen and Shklar), 773
polyps, human and experimental, growth of epithelium, melanocytes, and Langerhans cells on (Southam and Hodson), 546
regeneration aided by blood and blood substitutes after experimentally induced periapical infection (Myers and Fountain), 441
studies, analysis of histologic criteria commonly used in (Sayegh and Reed), 457
tooth, modulation of cortical inputs from, by electrical stimulation of adjacent gingiva (Savara et al.), 17
Pulpal and periapical tissue responses in conventional and monoinfected gnotobiotic rats (Korzen, Krakow, and Green), 783
histopathology, periodontal disease, bacteria, and (Langeland, Rodrigues, and Dowden), 257
Pulpoperiapical disease: Diagnosis and healing (Selden), 271

R

Radiation doses, comparative, in dental radiology (Lee), 962
Radiographic aids in detection of extra root canals (Slowey), 762
features of jaws in sickle-cell anemia (Mourshed and Tuckson), 812
superimposition and suspected dentigerous cyst, 306 (Roentgeno-oddities)
Radiographs, Panorex, comprehensive review of normal anatomic landmarks and artifacts as visualized on (Smith and Fleming), 291
Reiter's syndrome; psoriasiform lesions of oral mucosa (with emphasis on "ectopic geographic tongue") (Weathers et al.), 872
Replantation of roots, intentional, maintenance of alveolar bone by (Simon and Kimura), 936
Resins, composite, subcutaneous tissue response to, in dogs (Harsanyi, Angelopoulos, and Gourley), 308
Retinoblastoma, oral metastasis of (Pullon and Cohen), 583

Roentgen anatomy of facial bones, panoramic innominate line and related (Katayama, Ohba, and Ogawa), 131
Roentgenogram of bullet wound, 305 (Roentgeno-oddities)
Roentgeno-oddities, 138, 305, 485, 653, 824, 973
Root canal dentin, softening effect of chelating agents (Fraser), 803
extra, radiographic aids in detection of (Slowey), 762
sealer, comparative evaluation of polycarboxylate cement as, utilizing roughened and nonroughened silver points (Sanders and Dooley), 629
development, abnormal; unusual sequelae to surgical repositioning of impacted premolar (Stewart, Merrill, and Porter), 688
maintenance of alveolar bone by intentional replantation of (Simon and Kimura), 936
segments, submerged, histologic reaction of (Whitaker and Shankle), 919

S

Salivary ducts, imperforate, congenital sublingual cystic swellings due to (Hoggins and Hutton), 370
gland, ectopic, 653 (Roentgeno-oddities)
labial, biopsies, histopathology of Sjögren's syndrome in (Greenspan et al.), 217
minor, ectopic, papillary cystadenoma associated with (Wilson and MacEntee), 915
involvement in Sjögren's syndrome (Tarpley, Anderson and White), 64
Scanning electron microscopy of papillae foliatae of human tongue (Švejda and Janota), 208
Sclerosis, amyotrophic lateral (Roller et al.), 46
Sialoadenitis, experimental allergic (Rosenmann et al.), 566
Sialometaplasia, necrotizing (Dunlap and Barker), 722
Sickle-cell anemia, radiographic features of jaws in (Mourshed and Tuckson), 812
Silver points, roughened and nonroughened, comparative evaluation of polycarboxylate cement as root-canal sealer using (Sanders and Dooley), 629
Sjögren's syndrome, histopathology of, in labial salivary gland biopsies (Greenspan et al.), 217
minor salivary gland involvement in (Tarpley, Anderson, and White), 64
Skin grafts, allogeneic freeze-dried, use in oral environment (Carroll, Tow, and Vernino), 163
Speech, effect of surgery for correction of mandibular prognathism (Goodstein, Cooper, and Wallace), 846
Starch powder from surgeons' gloves, granulomas caused by (Cutright, Becker, and Bunge), 699
Sublingual absorption of para-aminosalicylic acid, effect of various conditions on (De Marco and Blomsnes), 320
Submucous fibrosis (Hamner, Looney, and Chused), 412
Supernumerary and impacted teeth, multiple, 976 (Roentgeno-oddities)
premolars, mandibular cyst and, 654 (Roentgeno-oddities)
tooth, 826 (Roentgeno-oddities)
odontoma and dens in dente, 974 (Roentgeno-oddities)
Surgery for correction of mandibular prognathism, effect on speech (Goodstein, Cooper, and Wallace), 846
full mandibular advancement, stability of treatment results in Class II malocclusion corrected by (Guernsey), 668
Surgical correction of prognathism, orthodontic treatment during intermaxillary immobilization period following (Elias, Telsey, and Stern), 526
endodontics, injection obturation in (Mosby and Tracy), 451
repositioning of impacted premolar, unusual sequelae (Stewart, Merrill, and Porter), 688
Swellings, congenital sublingual cystic, due to imperforate salivary ducts (Hoggins and Hutton), 370
Symphysis, mandibular, particulate marrow graft for restoration of (Mitchell and Marble), 196
Symposium on Mucous Membrane Pathology, 162 (Announcement)
Systemic disorders, effect on dental pulp in experimental animals (Cohen and Shklar), 773

T

Taenia infestation; cysticercosis of maxillofacial region (Timosca and Gavrilită), 390
Teeth. (*See also* specific teeth)
multiple impacted, unusual case, 975
supernumerary and impacted, 976 (Roentgeno-oddities)
Temporomandibular joint ankylosis; condylar reconstruction (Kent, Lavelle, and Dolan), 489
Teratology Society, 656, 978 (Announcements)
Thermoluminescent dosimetry systems, calcium fluoride and lithium fluoride, energy and angle dependence of (Gibbs and Mitchell), 641
Thermomechanical properties of gutta-percha (Goodman, Schilder, and Aldrich), 954
(Schilder, Goodman, and Aldrich), 946
Thyroid, lingual (Small), 692

Tissue response to intraosseous implants in albino rats (Desai and Sinkford), 26
subcutaneous, response to composite resins in dogs (Harsanyi, Angelopoulos, and Gourley), 308
Tomography, principles and clinical use; condylar reconstruction (Kent, Lavelle, and Dolan), 489
Tongue, carcinoma of, in child (Turner and Snitzer), 663
chondroma of (Gutmann et al.), 75
ectopic geographic; psoriasiform lesions of oral mucosa (Weathers et al.), 872
human, scanning electron microscopy of papillae foliatae of (Švejda and Janota), 208
nerve sheath myxoma in (Mincer and Spears), 428
"Tooth and nail" type of autosomal dominant ectodermal dysplasia (Giansanti, Long, and Rankin), 576
Tooth fragment, aspiration of; unusual complication associated with severe maxillofacial trauma (Kullbom and Adwers), 355
impacted maxillary, unusual, 825 (Roentgeno-oddities)
length, critical evaluation of some methods of determining (Bramante and Berbert), 463
supernumerary, 826 (Roentgeno-oddities)
odontoma and dens in dente, 974 (Roentgeno-oddities)
Trauma, severe maxillofacial, unusual complication associated with (Kullbom and Adwers), 355
Tumors. (*See also* specific tumors)
extraosseous adenomatoid odontogenic, with special reference to probability of basal-cell layer of oral epithelium as potential source of origin (Yazdi and Nowparast), 249
granular-cell (Peterson), 728
malignant; jaw metastases (van der Kwast and van der Waal), 850

U

University of Illinois, 488, 655 (Announcements)

V

Vestibuloplasty, asutural maxillary (Maloney, Shepherd, and Doku), 858
Vitallium endodontic implants (Letters to editor), 288

W

Wiring, circumferential, false aneurysm of facial artery as complication of (van den Akker and van der Lijn), 514

X

Xerostomia. (*See* Sjögren's syndrome)

Subject index

A

Acanthoma, squamous, of oral mucosa (Tomich and Shafer), 755
Adenoameloblastoma (Seymour, Funke, and Irby), 860
Adenocarcinoma; jaw metastasis from colon (Levy and Smith), 769
Adenoma, pleomorphic, of parotid gland, papillary cystadenoma lymphomatosum associated with (Astacio), 91
Adenomatoid odontogenic tumor (Hacihanefioğlu), 65
Age and thickness of cementum in impacted teeth, correlation between (Azaz et al.), 691
Alcoholism, chronic, mandibular osteomyelitis in patient with (Silbermann, Maloney, and Doku), 530
Ameloblastoma, granular-cell (Hartman), 241
  peripheral, basal-cell carcinoma and (Simpson), 233
American Association for the Advancement of Science, 972 (Announcement)
American Board of Oral Medicine, Inc., 827, 971 (Announcements)
American Institute of Oral Biology, 165, 493 (Announcements)
Anatomic measurements of human teeth extracted from males between ages of 17 and 21 years (Bjorndal et al.), 791
  variations in stylohyoid chain and their possible clinical significance (Frommer), 659
Angiomyoma of oral cavity (Gutmann et al.), 269
Angioneurotic edema of tongue and floor of mouth (Rubin and Grau), 710
Announcements, 165, 334, 493, 657, 827, 971
Anodontia, true partial, 969 (Roentgen-oddities)
Antigen, carcinoembryonic, and herpes zoster as diagnostic aids in malignant neoplasia (Burns), 372
Apical closure, induced, of human pulpless tooth, histologic evaluation (Klein and Levy), 954
Arm pain of dental origin (Senia and Klarich), 960
Association of American Women Dentists, 165, 493 (Announcements)

B

Bacteremia associated with surgical removal of impacted third molars, effects of preoperative rinsing with cetylpyridinium chloride on (Huffman et al.), 359
Bacteria, anaerobic, in oral infections (Sabiston and Gold), 187
Bacterial contamination as factor in healing of pulp exposures (Cotton), 441
Biocompatible interface, use for binding tissues and prostheses in temporomandibular joint surgery (Hinds, Homsy, and Kent), 512
Biology of human dental pulp meetings, hardcover edition available, 165, 334, 493, 657, 827, 971 (Announcements)
Bleeding as initial sign of carcinoma of tonsil (Suh et al.), 695
  gingival: only sign in case of fibrinolysis (Nichols et al.), 681
Bone cysts, traumatic, of jaws (Sapone and Hansen), 127
  traumatic, unusual (Schofield), 198
  marrow defects, focal osteoporotic, of jaws (Barker, Jensen, and Howell), 404
  resorption from a drinking straw, 826 (Roentgeno-oddities)
  tissue, effect on, of two formaldehyde-containing root canal filling pastes; biologic effects of root canal filling materials (Spångberg), 934
Bony lesions, experimentally produced, radiographic interpretation (Shoha, Dowson, and Richards), 294
  oral, of hyperparathyroidism, conservative treatment (Albers), 209

C

Campbell, J. Menzies (in memoriam), 708
Canals, furcation, in human mandibular first molar (Vertucci and Williams), 308
Cancrum oris-like lesion associated with acute myelogenous leukemia (Weinstein, Choukas, and Wood), 10
Capping of pulps infected with *Streptococcus mutans*, penicillin prophylaxis as adjunct to (Cotton and Kueter), 618

July, pp. 1-166; August, pp. 167-334; September, pp. 335-494; October, pp. 495-658; November, pp. 659-828; December, pp. 829-990.

Carcinoembryonic antigen and herpes zoster as diagnostic aids in malignant neoplasia (Burns), 372

Carcinomas, adenoid cystic, elastic tissues in (Adkins and Daley), 562

basal-cell, and peripheral ameloblastoma (Simpson), 233

of breast metastatic to gingiva (Perlmutter, Buchner, and Smukler), 749

of oral cavity evaluated by specific red cell adherence test (Liu et al.), 56

of tonsil, bleeding as initial sign (Suh et al.), 695

polypoid squamous, of floor of mouth (Snyder, Myers, and Steinberg), 763

Cementoblastoma (Abrams, Kirby, and Melrose), 394

benign (true cementoma) (Astacio and Méndez), 95

Cementoma, true (benign cementoblastoma) (Astacio and Méndez), 95

Cementum, correlation between age and thickness of, in impacted teeth (Azaz et al.), 691

Ceramic, biodegradable, in periodontal defects (Levin et al.), 344

Cetylpyridinium chloride, preoperative rinsing with, effects on bacteremia associated with surgical removal of impacted third molars (Huffman et al.), 359

Children, dental complications in treatment of rhabdomyosarcoma of oral cavity in (Carl, Sako, and Schaaf), 367

Cleft lip and cleft palate: one genetic system (Chabora and Horowitz), 181

Cobalt-60 radiation, effect on dental pulps of monkeys (Hutton et al.), 279

Colon, jaw metastasis from (Levy and Smith), 769

Condyles, mandibular, radiographic evaluation of defects created in (Goncalves et al.), 474

Condyloma acuminatum, intraoral (Summers and Booth), 273

Cryosurgery, osseous, and its effect on adjacent pulpal tissues (Pollan et al.), 668

Cusps, central; multiple anomalies in dental morphology (Ekman-Westborg and Julin), 217

Cystadenoma lymphomatosum, papillary, associated with pleomorphic adenoma of parotid gland (Astacio), 91

Cysts, bone, traumatic, of jaws: diagnosis, treatment, and prognosis (Sapone and Hansen), 127

unusual (Schofield), 198

Cytotoxicity of three endodontic intracanal medicaments (Kantz, Ferrillo, and Zimmermann), 600

D

Decay of unerupted premolar, 491 (Roentgeno-oddities)

Defects created in mandibular condyles, radiographic evaluation of (Goncalves et al.), 474

Dens evaginatus in etiology of bilateral periapical pathologic involvement in caries-free premolars (Senia and Regezi), 465

prevalence of (Yip), 80

in dente (Thomas), 653

Dental complications in treatment of rhabdomyosarcoma of oral cavity in children (Carl, Sako, and Schaaf), 367

morphology, multiple anomalies in: macrodontia, multituberculism, central cusps, and pulp invaginations (Ekman-Westborg and Julin), 217

patients, hospitalized, significance of urinalysis in treatment of (D'Eramo and McAnear), 36

radiology, 147, 315, 474, 639, 810, 962

Dentin dysplasia, Type II, or dentin dysplasia, coronal type (Giansanti and Allen), 911

Dentinal changes in regional odontodysplasia (Gardner), 887

Dentistry with patients in supine position, modified x-ray technique for (Venokur, Einbender, and Myers), 148

Dopa-positive melanocytes in gingival epithelium of Caucasians, morphology and quantitative distribution (Soames), 254

Dycal treatment, reaction of exposed pulp to (Tronstad), 945

Dyskeratosis, retrospective examination for, in 110 cases of oral papilloma (Greer and Goldman), 435

Dysplasia, dentin, Type II, or dentin dysplasia, coronal type (Giansanti and Allen), 911

fibrous, aggressive (Schofield), 29

E

Edema, angioneurotic, of tongue and floor of mouth (Rubin and Grau), 710

Elastic tissues in adenoid cystic carcinomas (Adkins and Daley), 562

Electricity, static, causing treelike dark markings, 824 (Roentgeno-oddities)

Electromyographic analysis, functional compensation of muscles after postoperative rehabilitation in reference to (Grosfeld), 829

Electronic root canal measurement, clinical evaluation (O'Neill), 469

Emphysema, tissue, caused by hydrogen peroxide (Bhat), 304

Endodontic intracanal medicaments, cytotoxicity of three (Kantz, Ferrillo, and Zimmermann), 600
operatory, unique x-ray viewer for (Weisman), 630
stabilizers, polymer-coated metal (Hodosh, Shklar, and Povar), 804
Endodontics, 103, 279, 441, 600, 773, 934
interrelationship between maxillary sinus and (Selden), 623
Extraction sites, effects of topical thyrocalcitonin on, in jaws of dogs (Foster and Kronman), 866
sockets, healing, of calcium-deficient rats, mast cells in (Smith), 378

F

Face, paraffinoma of (Bloem and van der Waal), 675
Fibrinolysis, gingival bleeding only sign (Nichols et al.), 681
Fibroma, giant-cell, of oral mucosa, ultrastructure of (Weathers and Campbell), 550
Fibromatosis, intraoral submucosal pseudosarcomatous (Solomon, Rosen, and Delman), 264
Fibrous dysplasia, aggressive (Schofield), 29
Foramina, accessory, and topography of molar furcations (Burch), 451
in furcation areas of human molar teeth, preliminary scanning electron microscope investigations of (Koenigs, Brilliant, and Foreman), 773
Foreign bodies for personality cosmetics, 825 (Roentgeno-oddities)
Formaldehyde-containing root canal filling pastes, effect on bone tissue; biologic effects of root canal filling materials (Spångberg), 934
Fracture, mandibular, use of malleable metal mesh in open reductions (Curry and Zallen), 335
suppurative osteomyelitis of mandible secondary to (Limongelli, Connaughton, and Williams), 850
Frenotomy, submucosal (Maloney, Doku, and Shepherd), 23
Furcation areas of human molar teeth, accessory foramina in, preliminary scanning electron microscope investigations of (Koenigs, Brilliant, and Foreman), 773
canals in human mandibular first molar (Vertucci and Williams), 308
molar, presence of accessory foramina and topography of (Burch), 451

G

Geniohyoid and genioglossus muscles: effect of experimental section (Moore and Russell), 2
Ghost cells, odontoma containing, in maxillary sinus (Osborne et al.), 819
Gingiva, human, fine anatomy of neurosecretory cells in (Luzardo-Baptista and Garcia-Tamayo), 928
metastasis to (Perlmutter, Buchner, and Smukler), 749
traumatic eosinophilic granuloma of (Tornes and Bang), 99
Gingival bleeding: only sign in case of fibrinolysis (Nichols et al.), 681
epithelium of Caucasians, morphology and quantitative distribution of dopa-positive melanocytes in (Soames), 254
Glandular (seromucinous) hamartoma of nasopharynx (Baillie and Batsakis), 760
Glass impaction, soft-tissue, 161 (Roentgeno-oddities)
Glickman, Irving, Memorial Lecture, 972 (Announcement)
Gonadal dysgenesis, syndrome of, and its variants, palatal abnormalities in, and in Noonan's syndrome (Horowitz and Morishima), 839
Granuloma, dental, occurrence and morphology of Russell bodies in (Leonard, Lunin, and Provenza), 584
traumatic eosinophilic, of gingiva (Tornes and Bang), 99
Gutta-percha, thermomechanical properties of (Schilder, Goodman, and Aldrich), 109

H

Hamartoma, glandular (seromucinous), of nasopharynx (Baillie and Batsakis), 760
Harbor General Hospital and UCLA, postdoctoral fellowship in oral facial genetics and craniofacial anomalies, 971 (Announcement)
Healing; effects of topical thyrocalcitonin on extraction sites in jaws of dogs (Foster and Kronman), 866
of experimentally induced pulpitis (Mjör and Tronstad), 115
of pulp exposures, bacterial contamination as factor (Cotton), 441
Hemangioma involving maxillary sinus (Afshin and Sharmin), 204
Herpes simplex virus, traumatic induction of intraoral reinfection with (Guggenheimer and Fletcher), 546
zoster and carcinoembryonic antigen as diagnostic aids in malignant neoplasia (Burns), 372
Histiocytosis X, chronic disseminated, treated with vinblastine sulfate and prednisone (Collins, Schmale, and Kiersch), 388
Hydrogen peroxide, tissue emphysema caused by (Bhat), 304

Hyperparathyroidism, oral bony lesions of, conservative treatment (Albers), 209
Hyposalivation, prevalence in rheumatoid arthritis and its relation to sialographic appearance of parotid glands (Ericson), 315

I

In memoriam: J. Menzies Campbell, 708
Incisor, congenital single, 490 (Roentgeno-oddities)
  supernumerary central, bilaterally impacted, 332 (Roentgeno-oddities)
Indiana University School of Dentistry, 657 (Announcement)
Infections, oral, anaerobic bacteria in (Sabiston and Gold), 187
Interface, biocompatible, use for binding tissues and prostheses in temporomandibular joint surgery (Hinds, Homsy, and Kent), 512
Intraoral reinfection with herpes simplex virus, traumatic induction of (Guggenheimer and Fletcher), 546
Isobutyl-2-cyanoacrylate, response of microvascular system of dental pulp to, in vivo microscopic study (McClugage et al.), 139

J

Jaw(s), focal osteoporotic bone marrow defects of (Barker, Jensen, and Howell), 404
  metastasis from colon (Levy and Smith), 769
  metastatic malignant tumors of (Linkous and Welch), 703
  traumatic bone cysts of (Sapone and Hansen), 127
Jet injection, tissue reaction to (ElGeneidy et al.), 501
Juvenile xanthogranuloma of oral cavity (Kjaerheim and Stokke), 414

K

Kaposi's sarcoma and its oral manifestations (Gambardella), 591
Keratoacanthoma of lower lip (Azaz and Lustmann), 918

L

Latin American Association of Dental Schools, 828 (Announcement)
Leprosy, lepromatous, pathologic changes in soft palate (Reichart), 898
Leukemia, acute myelogenous, cancrum oris-like lesion associated with (Weinstein, Choukas, and Wood), 10
Lichen planus, oral, malignant potential (Reisman et al.), 227
Lip, cleft, and cleft palate: one genetic system (Chabora and Horowitz), 181
Lip—Cont'd
  lower, keratoacanthoma of (Azaz and Lustmann), 918
Lymphoepithelial sialoadenopathies, benign (Leban and Stratigos), 735

M

Macrodontia; multiple anomalies in dental morphology (Ekman-Westborg and Julin), 217
Malignant potential of oral lichen planus—diagnostic pitfalls (Reisman et al.), 227
Mandible, restoration of lateral movements; functional compensation of muscles after postoperative rehabilitation in reference to electromyographic analysis (Grosfeld), 829
  suppurative osteomyelitis of, secondary to fracture (Limongelli, Connaughton, and Williams), 850
Mandibular condyles, radiographic evaluation of defects created in (Goncalves et al.), 474
  ramus, evaluation of surgical procedure of sagittal split osteotomy of (Wang and Waite), 167
  reductions, open, use of malleable metal mesh (Curry and Zallen), 335
Mast cells in healing extraction sockets of calcium-deficient rats (Smith), 378
Maxilla, benign osteoblastoma of (Yip and Lee), 259
Maxillary sinus and endodontics, interrelationship between (Selden), 623
  hemangioma involving (Afshin and Sharmin), 204
  odontoma containing ghost cells in (Osborne et al.), 819
  unusually large, 656 (Roentgeno-oddities)
Medical College of Virginia, 972 (Announcement)
Melanocytes, dopa-positive, morphology and quantitative distribution in gingival epithelium of Caucasians (Soames), 254
Melanoma, primary malignant, of oral cavity in Indians (Soman and Sirsat), 426
Merkel cells; fine anatomy of neurosecretory cells in human gingiva (Luzardo-Baptista and Garcia-Tamayo), 928
Mesh, malleable metal, use in open mandibular reductions (Curry and Zallen), 335
Metaendodont: differentiated biologic entity (Kuttler), 605
Metastasis, jaw, from colon (Levy and Smith), 769
  to gingiva (Perlmutter, Buchner, and Smukler), 749
Mid-Pacific Society of Periodontology, 494 (Announcement)

Mikulicz's disease; benign lymphoepithelial sialoadenopathies (Leban and Stratigos), 735

Molar furcations, presence of accessory foramina and topography of (Burch), 451

mandibular first, human, furcation canals in (Vertucci and Williams), 308

third, surgery, evaluation of postoperative localized osteitis in (Schow), 352

third, surgical removal of impacted, effects of preoperative rinsing with cetylpyridinium chloride on bacteremia associated with (Huffman et al.), 359

transplantation into edentulous site (Conklin), 193

Mouth, floor of, angioneurotic edema of tongue and (Rubin and Grau), 710

polypoid squamous carcinoma of (Snyder, Myers, and Steinberg), 763

Mucinosis, oral focal (Tomich), 714

Multituberculism; multiple anomalies in dental morphology (Ekman-Westborg and Julin), 217

Muscles, functional compensation of, after postoperative rehabilitation in reference to electromyographic analysis (Grosfeld), 829

geniohyoid and genioglossus: effect of experimental section (Moore and Russell), 2

N

Nasopharynx, glandular (seromucinous) hamartoma of (Baillie and Batsakis), 760

Necrosis, tissue, osteoclasia with: diagnostic dilemma (Allen, White, and McFarland), 698

Neoplasia, malignant, carcinoembryonic antigen and herpes zoster as diagnostic aids (Burns), 372

Nerve fibers of human dental pulp, effect of pulpal disease upon, histopathologic study (England, Pellis, and Michanowicz), 783

Neuralgia, trigeminal, paroxysmal, in association with temporomandibular joint dysfunction, diagnosis and management (Moore and Nally), 874

Neurosecretory cells in human gingiva, fine anatomy of (Lazardo-Baptista and Garcia-Tamayo), 928

Nevus, blue, of oral mucosa (Teles, Cardoso, and Gonçalves), 905

Noma; cancrum oris-like lesion associated with acute myelogenous leukemia (Weinstein, Choukas, and Wood), 10

Noonan's syndrome, palatal abnormalities in syndrome of gonadal dysgenesis and its variants and in (Horowitz and Morishima), 839

O

Occlusal anomalous tubercle on premolars of Greek girl (Sykaras), 88

Odontodysplasia, regional, dentinal changes in (Gardner), 887

Odontoma containing ghost cells in maxillary sinus (Osborne et al.), 819

Oral bony lesions of hyperparathyroidism, conservative treatment (Albers), 209

cavity, angiomyoma of (Gutmann et al.), 269

carcinoma of, evaluated by specific red cell adherence test (Liu et al.), 56

juvenile xanthogranuloma of (Kjaerheim and Stokke), 414

primary malignant melanoma of, in Indians (Soman and Sirsat), 426

rhabdomyosarcoma of, in children, dental complications in treatment of (Carl, Sako, and Schaaf), 367

focal mucinosis (Tomich), 714

infections, anaerobic bacteria in (Sabiston and Gold), 187

lichen planus, malignant potential (Reisman et al.), 227

medicine, 47, 217, 382, 540, 710, 874

mucosa, blue nevus of (Teles, Cardoso, and Gonçalves), 905

squamous acanthoma of (Tomich and Shafer), 755

ultrastructure of giant-cell fibroma of (Weathers and Campbell), 550

papillomas (Greer and Goldman), 435

pathology, 55, 233, 394, 550, 714, 887

psoriasis (Salmon et al.), 48

surgery, 1, 167, 335, 495, 659, 829

surgical procedures, custom-cast splints for (Brudvik, Chandler, and Gerhard), 15

Orthodontics, surgical, 44-month evaluation of patient treated by (Palomo, Kopczyk, and Chase), 520

Osseous cryosurgery and its effect on adjacent pulpal tissues (Pollan et al.), 668

Osteitis, postoperative localized, in mandibular third molar surgery (Schow), 352

Osteoarthrosis, primary, temporomandibular joint involvement (Chalmers and Blair), 74

Osteoblastoma, benign, of maxilla (Yip and Lee), 259

Osteochondromatosis of temporomandibular joint (Vasanen, Lamberg, and Kotilainen), 845

Osteoclasia with tissue necrosis: diagnostic dilemma (Allen, White, and McFarland), 698

Osteomyelitis, mandibular, in patient with chronic alcoholism (Silvermann, Maloney, and Doku), 530
suppurative, of mandible secondary to fracture (Limongelli, Connaughton, and Williams), 850
Osteoporotic bone marrow defects, focal, of jaws (Barker, Jensen, and Howell), 404
Osteotomy, sagittal split, of mandibular ramus, evaluation of surgical procedure (Wang and Waite), 167
maxillary; 44-month evaluation of patient treated by surgical orthodontics (Palomo, Kopczyk, and Chase), 520

P

Pain, arm, of dental origin (Senia and Klarich), 960
Palatal abnormalities in syndrome of gonadal dysgenesis and its variants and in Noonan's syndrome (Horowitz and Morishima), 839
Palate, cleft, cleft lip and: one genetic system (Chabora and Horowitz), 181
soft, pathologic changes in lepromatous leprosy (Reichart), 898
Papillary cystadenoma lymphomatosum associated with pleomorphic adenoma of parotid gland (Astacio), 91
Papillomas, oral (Greer and Goldman), 435
Paraffinoma of face (Bloem and van der Waal), 675
Parotid gland, papillary cystadenoma lymphomatosum associated with pleomorphic adenoma of (Astacio), 91
sialographic appearance of, prevalence of hyposalivation in rheumatoid arthritis and its relation to (Ericson), 315
Pemphigus vulgaris: incidence in Jews of different ethnic groups, according to age, sex, and initial lesion (Pisanti et al.), 382
Penicillin prophylaxis as adjunct to capping of pulps infected with *Streptococcus mutans* (Cotton and Kueter), 618
Peninsula Hospital Center, 827 (Announcement)
Periapical pathologic involvement, bilateral, in caries-free premolars, dens evaginatus in etiology of (Senia and Regezi), 465
Periodontal defects, biodegradable ceramic in (Levin et al.), 344
Personality cosmetics, foreign bodies for, 825 (Roentgeno-oddities)
Phenylbutazone-induced sialadenitis (Garfunkel et al.), 223
Polymer-coated metal endodontic stabilizers (Hodosh, Shklar, and Povar), 804
Prednisone and vinblastine sulfate in treatment of chronic disseminated histiocytosis X (Collins, Schmale, and Kiersch), 388
Premolars, caries-free, dens evaginatus in etiology of bilateral periapical pathologic involvement in (Senia and Regezi), 465
human maxillary second, root canal morphology of (Vertucci, Seelig, and Gillis), 456
occlusal anomalous tubercle on, in Greek girl (Sykaras), 88
symmetrical mandibular supernumerary, 968 (Roentgeno-oddities)
two- and three-rooted, unusual case, 969 (Roentgeno-oddities)
unerupted, decay of, 491 (Roentgeno-oddities)
Prostheses and tissues, use of biocompatible interface for binding, in temporomandibular joint surgery (Hinds, Homsy, and Kent), 512
Pseudomonas aeruginosa, salivary (Topping, Popkes, and DiSanto), 42
Psoriasis, oral (Salmon et al.), 48
Pulps, dental, effect of cobalt-60 radiation on (Hutton et al.), 279
human, effect of pulpal disease upon nerve fibers of, histopathologic study (England, Pellis, and Michanowicz), 783
response of microvascular system of, to isobutyl-2-cyanoacrylate, in vivo microscopic study (McClugage et al.), 139
exposed, reaction to Dycal treatment (Tronstad), 945
exposures, bacterial contamination as factor in healing of (Cotton), 441
infected with *Streptococcus mutans*, penicillin prophylaxis as adjunct to capping of (Cotton and Kueter), 618
invaginations; multiple anomalies in dental morphology (Ekman-Westborg and Julin), 217
necrotic, origin of arm pain (Senia and Klarich), 960
Pulpal disease, histopathologic study of effect of, upon nerve fibers of human dental pulp (England, Pellis, and Michanowicz), 783
tissues, osseous cryosurgery and its effect on adjacent (Pollan et al.), 668
Pulpitis, experimentally induced, healing of (Mjör and Tronstad), 115

R

Radiation, cobalt-60, effect on dental pulps of monkeys (Hutton et al.), 279
dosimetry and intraoral radiographic techniques (Frey and Wuehrmann), 151, 639
Radiographic evaluation of defects created in mandibular condyles (Goncalves et al.), 474

Radiographic—Cont'd
interpretation of experimentally produced bony lesions (Shoha, Dowson, and Richards), 294
reliability of (Goldman, Pearson, and Darzenta), 287
techniques, intraoral, radiation dosimetry and (Frey and Wuehrmann), 639
Radiographs, dental, analysis of apparently identical (Duinkerke and van de Poel), 962
Radiography, dental, effective acceptability of compact foreign-made x-ray generators (Saulnier and Barr), 810
Red cell adherence test, specific, carcinoma of oral cavity evaluated by (Liu et al.), 56
Replantation of avulsed anterior teeth (Bellizzi), 614
of teeth in noncontiguous arch, splinting method for (Simpson, Harrington, and Natkin), 104
Rhabdomyosarcoma of oral cavity in children, dental complications in treatment of (Carl, Sako, and Schaaf), 367
Rheumatoid arthritis, prevalence of hyposalivation in, and its relation to sialographic appearance of parotid glands (Ericson), 315
Roentgeno-oddities, 161, 332, 490, 656, 824, 968
Root apex, sequelae of accidentally injecting sodium hypochlorite beyond (Becker, Cohen, and Borer), 633
canal filling materials, biologic effects (Spångberg), 934
incidence of two, in human mandibular incisor teeth (Benjamin and Dowson), 122
measurement, electronic, clinical evaluation (O'Neill), 469
morphology of human maxillary second premolar (Vertucci, Seelig, and Gillis), 456
tip, migrating, 163 (Roentgeno-oddities)
Russell bodies in dental granuloma, occurrence and morphology (Leonard, Lunin, and Provenza), 584

S

Sagittal split osteotomy of mandibular ramus, evaluation of surgical procedure (Wang and Waite), 167
Salivary gland counterbalance (Samuels and Provencher), 535
Pseudomonas aeruginosa (Topping, Popkes, and DiSanto), 42
Sarcoma, Kaposi's, and its oral manifestations (Gambardella), 591
Sialadenitis, phenylbutazone-induced (Garfunkel et al.), 223
Sialoadenopathies, benign lymphoepithelial (Leban and Stratigos), 735
Sialographic appearance of parotid glands, prevalence of hyposalivation in rheumatoid arthritis and its relation to (Ericson), 315
Sinus, maxillary, and endodontics, interrelationship between (Selden), 623
hemangioma involving (Afshin and Sharmin), 204
odontoma containing ghost cells in (Osborne et al.), 819
unusually large, 656 (Roentgeno-oddities)
Sjögren's syndrome; benign lymphoepithelial sialoadenopathies (Leban and Stratigos), 735
Smoking, reverse, regression of stomatitis nicotina in persons with long-standing habit of (Reddy, Rajakumari, and Ramulu), 570
Sodium hypochlorite, accidental injection beyond root apex, sequelae of (Becker, Cohen, and Borer), 633
Soft-tissue glass impaction, 161 (Roentgeno-oddities)
Splinting method for replantation of teeth in noncontiguous arch (Simpson, Harrington, and Natkin), 104
Splints, custom-cast, for oral surgical procedures (Brudvik, Chandler, and Gerhard), 15
Stabilizers, endodontic, polymer-coated (Hodosh, Shklar, and Povar), 804
Stanford University Medical Center, 165 (Announcement)
Static electricity causing treelike dark markings, 824 (Roentgeno-oddities)
Stomatitis, aphthous; fine anatomy of neurosecretory cells in human gingiva (Luzardo-Baptista and Garcia-Tamayo), 928
nicotina in persons with long-standing habit of reverse smoking, regression of (Reddy, Rajakumari, and Ramulu), 570
Streptococcus mutans, penicillin prophylaxis as adjunct to capping of pulps infected with (Cotton and Kueter), 618
Stylohyoid chain, anatomic variations in, and their possible clinical significance (Frommer), 659
Sublingual varices, clinical study (Ettinger and Manderson), 540
histologic study (Southam and Ettinger), 879
Supernumerary central incisors, bilaterally impacted, 332 (Roentgeno-oddities)
premolars, symmetrical mandibular, 968 (Roentgeno-oddities)
Surgery, mandibular third molar, evaluation of postoperative localized osteitis in (Schow), 352

Surgery—Cont'd
temporomandibular joint, use of biocompatible interface for binding tissues and prostheses in (Hinds, Homsy, and Kent), 512
Surgical orthodontics, 44-month evaluation of patient treated by (Palomo, Kopczyk, and Chase), 520
procedure of sagittal split osteotomy of mandibular ramus, evaluation of (Wang and Waite), 167
removal of impacted third molars, effects of preoperative rinsing with cetylpyridinium chloride on bacteremia associated with (Huffman et al.), 359

T

Teeth (*See also* specific teeth)
avulsed anterior, replantation of (Bellizzi), 614
human, extracted from males between ages of 17 and 21 years, anatomic measurements (Bjorndal et al.), 791
mandibular incisor, incidence of two root canals in (Benjamin and Dowson), 122
molar, accessory foramina in furcation areas of, preliminary scanning electron microscope investigations of (Koenigs, Brilliant, and Foreman), 773
impacted, correlation between age and thickness of cementum in (Azaz et al.), 691
in dermoid tumor, 162 (Roentgeno-oddities)
replantation of, in noncontiguous arch, splinting method for (Simpson, Harrington, and Natkin), 104
Temporomandibular joint dysfunction, diagnosis and management of paroxysmal trigeminal neuralgia in association with (Moore and Nally), 874
involvement in primary osteoarthrosis (Chalmers and Blair), 74
osteochondromatosis of (Tasanen, Lamberg, and Kotilainen), 845
surgery, use of biocompatible interface for binding tissues and prostheses in (Hinds, Homsy, and Kent), 512
surgical isolation; functional compensation of muscles after postoperative rehabilitation in reference to electromyographic analysis (Grosfeld), 829
Thermomechanical properties of gutta-percha (Schilder, Goodman, and Aldrich), 109
Thoma, Kurt H., tribute to (Guralnick), 495
Thyrocalcitonin, topical, effects on extraction sites in jaws of dogs (Foster and Kronman), 866
Tissues, elastic, in adenoid cystic carcinomas (Adkins and Daley), 562
Tissues—Cont'd
emphysema caused by hydrogen peroxide (Bhat), 304
necrosis, osteoclasia with: diagnostic dilemma (Allen, White, and McFarland), 698
reaction to jet injection (ElGeneidy et al.), 501
Tongue and floor of mouth, angioneurotic edema of (Rubin and Grau), 710
Tonsil, carcinoma of, bleeding as initial sign (Suh et al.), 695
Tooth, pulpless, human, induced apical closure of, histologic evaluation (Klein and Levy), 954
Transplantation of third molar into edentulous site (Conklin), 193
Tricalcium phosphate ceramic, biodegradable, in periodontal defects(Levin et al.), 344
Trigeminal neuralgia, paroxysmal, in association with temporomandibular joint dysfunction, diagnosis and management (Moore and Nally), 874
Tubercle, occlusal anomalous, on premolars of Greek girl (Sykaras), 88
Tumors (*See also* specific tumors)
adenomatoid odontogenic (Hacihanefioğlu), 65
dermoid, teeth in, 162 (Roentgeno-oddities)
metastatic malignant of jaws (Linkous and Welch), 703

U

University of California at Los Angeles and Harbor General Hospital, postdoctoral fellowship in oral facial genetics and craniofacial anomalies, 971 (Announcement)
University of Michigan announces fifth annual symposium, 493 (Announcement)
University of Pittsburgh graduate periodontics program, 827 (Announcement)
University of Washington sponsors seminars in World's Fair setting, 165 (Announcement)
Urinalysis, significance in treatment of hospitalized dental patients (D'Eramo and McAnear), 36

V

Varices, sublingual, clinical study (Ettinger and Manderson), 540
histologic study (Southam and Ettinger), 879
Verruciform xanthoma (Zegarelli, Zegarelli-Schmidt, and Zegarelli), 725
Vinblastine sulfate and prednisone in treatment of chronic disseminated histiocytosis X (Collins, Schmale, and Kiersch), 388

Virginia Commonwealth University, 657 (Announcement)

W

Warts, genital; intraoral condyloma acuminatum (Summers and Booth), 273

X

Xanthogranuloma, juvenile, of oral cavity (Kjaerheim and Stokke), 414

Xanthoma, verruciform (Zegarelli, Zegarelli-Schmidt, and Zegarelli), 725

Xeroderma pigmentosum, keratoacanthoma of lower lip in patient with (Azaz and Lustmann), 918

X-ray beam patterns within head; radiation dosimetry and intraoral radiographic techniques (Frey and Wuehrmann), 151

generators, compact foreign-made: evaluation of their acceptability for effective dental radiography (Saulnier and Barr), 810

technique, modified, for dentistry with patients in supine position (Venokur, Einbender, and Myers), 148

viewer, unique, for endodontic operatory (Weisman), 630
